Website Disclaimer

Welcome to the HealthSphere.net Corporation (“HealthSphere”) website. This Disclaimer contains important information HealthSphere needs to share with you and for you to understand. Please be advised of the following:

The information contained on this website, including ideas, assessments, tools, apps, trainings, consultations, and other materials is educational in nature and is provided only as general information and is not medical advice. Transmission of the information presented on this website is not intended to create and receipt does not constitute any professional relationship between HealthSphere and the visitor and should not be relied upon as medical, nutritional, psychological, or other professional advice of any kind or nature.

You understand by viewing this website you will be introduced to HealthSphere’s products and services that are based on a variety of holistic alternative healing arts methods within the field of complementary and alternative medicine, including **Ayurveda, Energy Medicine, Intuitive Assessment, Medical Dietetics, herbology, Bach Flower Essences, and homeopathy** (collectively the “CAM Methods”). The prevailing premise of the CAM Methods is that the flow and balance of the body’s electromagnetic and more subtle energies are important for physical, spiritual, and emotional health, and for fostering well-being. HealthSphere’s products and services are designed to provide clients with resources and tools to help them optimize their health and to guide them in overcoming the daily challenges they face in their personal and professional lives

Although the CAM Methods appear to have promising emotional, spiritual, and physical health benefits, they have yet to be fully researched by the Western academic, medical, and psychological communities; therefore they are considered experimental. The CAM Methods are self-regulated and the State of California does not license any practitioners of the CAM Methods and considers them to be *alternative* or *complementary* to the healing arts that are licensed by the State of California.

Any information presented on this website about HealthSphere’s products and services, included but not limited to, the Core Assessment, Extended Core Assessment, Comprehensive Analysis, Trainings, Business Advisory, and Personal Coaching are not intended to represent that they are used to diagnose, cure, treat, or prevent any medical problem or psychological disorder nor are they intended as a substitute for seeking professional health care advice. HealthSphere strongly advises that you seek professional advice as appropriate before making any health decision.

Bailey, who is the co-founder of HealthSphere and provides HealthSphere's personalized services, has earned a PhD in Energy Medicine and has extensive experience as an alternative healing arts practitioner, she is not a physician, psychologist, registered dietitian, or other licensed health care practitioner and her services are not licensed by the State of California.
